STEM Advantage is a non-profit whose mission is to mentor, prepare and inspire **women and underserved communities** - most of whom are low-income, first generation college students - to pursue STEM careers through internships, mentorships, scholarships, professional development and events to build community.

Advancing equity through education:

- STEM Advantage Scholars graduate and **earn \$71,000 a year, on average, for their first job with a top salary of \$100,000.**
- Scholars "**pay it forward**" as role models, mentors, and inspiration for young girls and boys. *If they can see it, they can be it!*

STEM Advantage is a proven pipeline for diverse STEM talent. 100% of your tax-deductible gift goes directly to fund scholarships to help scholars graduate with less student debt.
