STEM ADVANTAGE

ADVANCING EQUITY THROUGH EDUCATION

October 2023 Newsletter

Seeking Internships and Entry-Level Skilled Jobs

As you know, most internships and jobs are found through networking.

Please help us help our talented Scholars find paid internships and entry-level jobs. Internships help students gain real-world experience in their major and position them for early career jobs when they graduate. Plus, we have new grads seeking full-time jobs.

Scholars are earning a bachelor's degree in Computer Science, Software Engineering, Computer Information Systems, Computer Technology, Data Science, Cybersecurity, Mathematics, Aerospace Engineering, Biomedical Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, and other STEM-related majors.

If you, or someone you know, can provide **paid internships and/or hire entry-level skilled talent**, please contact Jasmyn Masters-Culpepper, who leads Internships & Career Placement, at jasmyn@stemadvantage.org

Invest in Diverse STEM Talent

Talent is equally distributed, but opportunity is not. STEM Advantage mentors, prepares, and inspires women and underserved communities, primarily first-generation college students from low-income families, for STEM careers. We provide economic and social mobility to underserved groups, while providing a vetted pipeline of diverse talent to businesses to fill their workforce needs. The Los Angeles Business Journal honored STEM Advantage as Diversity, Inclusion + Equity Nonprofit of the Year!

100% of your tax-deductible gift supports STEM Advantage Scholars Thank you for making an investment that is changing lives.
