## August 2024 Newsletter

### Important Dates

**August, September, October** - Internships and New Graduate roles are open

**September 5 @ 7 pm PT** - Online Auction closes

**September 6 from 7 to 10 pm PT** - STEM Advantage Scholarship Gala

### Talent Is Equally Distributed, but Opportunity Is Not

If you are recruiting for **2025 internships** and **entry level roles**, we have STEM talent looking for opportunities. Our scholars are primarily first-generation college students from low-income families earning a bachelor's degree in a STEM major. We have a pool of skilled and vetted STEM candidates ready to make a difference in your organization. There is no cost or obligation to hire.

Please contact Jasmyn at [jasmyn@stemadvantage.org](mailto:jasmyn@stemadvantage.org) to discuss your needs.

### Internships Make a Difference!

Most Scholars wrapped up a summer internship or research experience in August and started Fall classes. Highlighting a few Scholars at their internships...

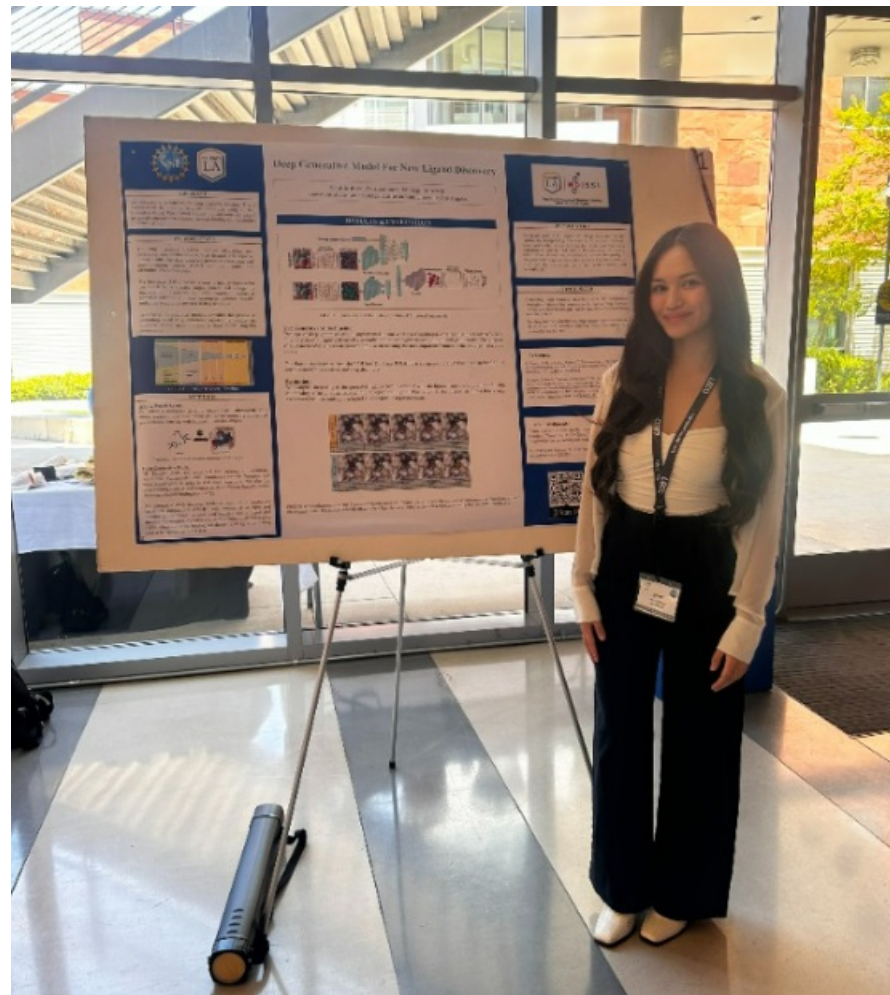

Aletheia is earning a bachelor's degree in Mechanical Engineering at Cal Poly Pomona.

"During my internship with the Mighty Mouse Product Engineering Team at Glenair, I learned about product engineering/design and manufacturing through hands-on experiences like using SolidWorks, tolerance analysis, and resin 3D printing."

Randy is earning a bachelor's degree in Computer Science at Cal State Fullerton.

"This summer I interned as a Software Developer at Amazon Web Services in Seattle on the Amazon Q Business team. Q Business is a Generative AI powered assistant to accelerate software development and productivity. I was able to gain professional experience and learn about all the services AWS offers."

Uriel is earning a bachelor's degree in Computer Science at Cal State LA.

"This summer I was a Machine Learning research assistant for the Computational Biology Lab at Cal State LA, an NSF-funded program. Here is a picture from my presentation at the program's research symposium."

Joshua is earning a bachelor's degree in Computer Science at San Diego State University. This summer he was a Systems Engineering Intern at Northrop Grumman.

**Invest in STEM Talent**

Talent is equally distributed, but opportunity is not. STEM Advantage mentors, prepares, and inspires women and underserved communities, primarily first-generation college students from low-income families, for STEM careers empowering economic and social mobility, while providing a vetted pipeline of diverse talent to businesses to fill their workforce needs.

Thank YOU for making an investment that is changing lives!
