## September 2024 Newsletter

### Internships Make a Difference!

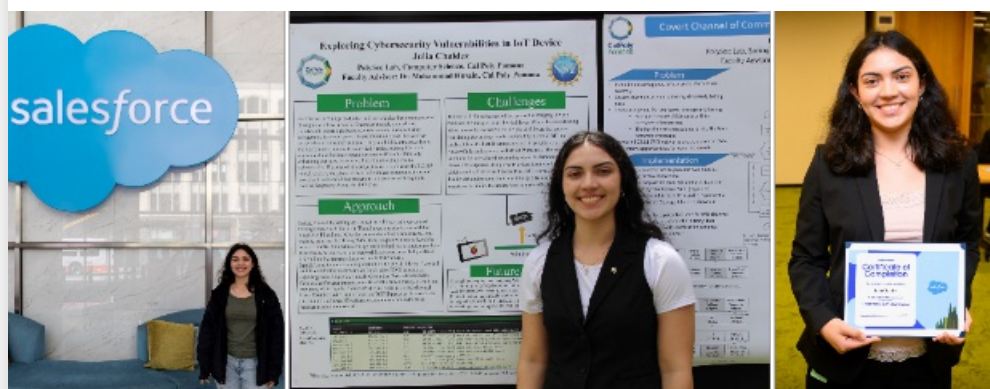

If you are recruiting for **2025 internships** and **entry level roles**, we have STEM talent looking for opportunities. We have a pool of skilled and vetted STEM candidates, primarily first-generation college students, ready to make a difference in your organization. There is no cost or obligation to hire.

Please contact Jasmy at [jasmyn@stemadvantage.org](mailto:jasmyn@stemadvantage.org) to discuss your needs.

### Highlighting More Scholars at Summer Internships

Julia is earning a bachelor's degree in Computer Science at Cal Poly Pomona. Roxana is earning a bachelor's degree in Computer Science at Cal State LA. This summer they were selected as Futureforce Tech Launchpad Scholars at Salesforce, where they learned full stack web development, completed a capstone project, and were mentored by Salesforce professionals.

Julia also conducted research in the cybersecurity field and presented her project at the annual research symposium on her school's campus.

Chinedu "Roland" (on the right in first photo) is earning a bachelor's degree in Computer Science at Cal State Northridge. This summer he was a Software Engineer intern at Blizzard Entertainment. These photos were taken during a scavenger hunt event to help interns socialize with each other.

Melissa is earning a bachelor's degree in Information Technology at Cal State Dominguez Hills. This summer she was a Computer System Analyst Intern at Northrop Grumman.

### Thank You for Making Our Gala a Huge Success

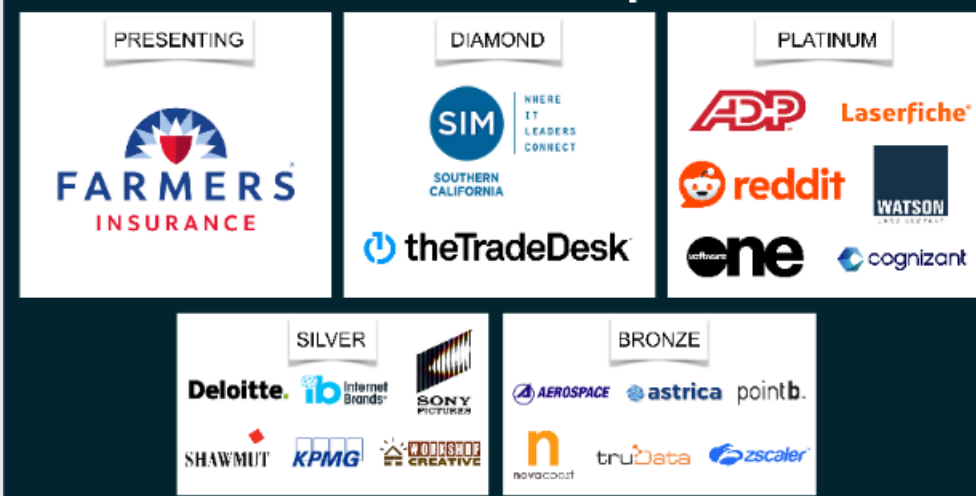

Thank you to everyone for supporting our Scholars and making our 12th Annual Scholarship Gala a huge success! Scattered outages across Los Angeles caused the power to go out, but nothing could stop the festivities at this year's event. We are incredibly grateful to everyone who attended and helped make the night a success.

We raised \$250,000 thanks to everyone's generosity through our gala, live and online auctions, and Fund a Scholar, and commitment to empowering the next generation of STEM leaders. Every donation goes directly to benefiting our scholars, helping them thrive in their academic and professional journeys.

We appreciate and thank our scholars and alumni Emily S, Emily V, Eddy, and Edith, who shared their stories and the difference your donations make to transforming lives. Scholars and alumni are the best ambassadors for our program.

A very special thank you to our emcee Frank Mottek and generous sponsors.

### Thank You to Our Sponsors

### Invest in STEM Talent

Talent is equally distributed, but opportunity is not. STEM Advantage mentors, prepares, and inspires women and underserved communities, primarily first-generation college students from low-income families, for STEM careers empowering economic and social mobility, while providing a vetted pipeline of diverse talent to businesses to fill their workforce needs.

Thank YOU for making an investment that is changing lives!
