February 2025 Newsletter

2025 Internships & Entry-Level Jobs

If you are recruiting for **2025 internships and entry level roles**, we have skilled, hard-working, and vetted STEM talent ready to contribute, learn, and make a valued contribution to your team! Our Scholars are earning a bachelor's degree in a STEM major, e.g., computer science, computer information systems, computer technology, cybersecurity, mathematics, aerospace engineering, biomedical engineering, civil engineering, computer engineering, electrical engineering, mechanical engineering, software engineering, and more.

Please contact Jasmyrn at jasmyn@stemadvantage.org to discuss your hiring needs. *Thank you!*

Visiting Campuses

During February and March, we visit each of the eight California State University (CSU) campuses where we offer our flagship STEM Advantage Scholars program and Freshmen STEM Career Pathways program for first-year students. It's always a pleasure meeting with our campus liaisons and current scholars, sharing program information with new students, and inviting them to apply for our program.

Sharing a few photos from our visits.

STEM ADVANTAGE HONORS AND CELEBRATES

BLACK HISTORY MONTH

Invest in STEM Talent

Talent is equally distributed, but opportunity is not. STEM Advantage Scholars have the talent, grit, and ambition to succeed -- they just need someone to open the door. Your investment and generosity can provide internships and vital career-building experiences, mentors, scholarships, and community for students. Together, we can unlock potential and change lives. Join us in creating opportunities for those who need it most. We appreciate your support.

DONATE NOW

To learn more and get involved, contact Lee Ann at leann@stemadvantage.org, visit <http://www.stemadvantage.org> and follow us on social media.
